## Join us for a weekend of fun 22nd/23rd July

The Mull of Galloway Trust has been awarded a grant from The Big Lottery's Celebrate Fund to host this exciting event in Port Logan to celebrate the fact that the pier and lighthouse were built by Thomas Telford in 1818.

The Trust, together with other local organisations including Port Logan Village Hall Committee and Kirkmaiden Community Council has planned this two day event for local people and visitors to the area to attend, enjoy and celebrate!

This opportunity to discover the history of Port Logan and the Telford connection has been planned as 2017 is the Visit Scotland Year of History, Heritage and Archaeology celebrating historic places.

Port Logan is home to the most westerly work on mainland Britain of Thomas Telford (1757 – 1834), Scottish Civil Engineer, Architect and Stonemason. Telford was a noted road, bridge and canal builder. After establishing himself as an engineer of road and canal projects in Shropshire, he designed numerous projects in his native Scotland, as well as harbours and tunnels.
